When it comes to managing your health, having a primary care physician is one of the most important steps you can take. It's vital to choose a doctor you trust, and who understands your health. Many of Emerson Practice Associates family and internal medicine doctors also have clinical interests or advanced training. Emerson Practice Associates physician referral service can help you find the right doctor who meets your individual needs.

Services

- Acute illness & injury treatment
- Chronic disease care
- Lab tests
- Physical exams
- Routine health screenings
- Vaccinations

About Our TeleHealth Visits

- Telehealth visits offer a safe, secure and convenient way to consult with your doctor without going into the office.
- Your insurance will cover the visit subject to your plan's co-payments, coinsurance, and deductibles.
- The visit will take place in the manner that you are most comfortable. Most physicians prefer to utilize a video component, but there is also flexibility to conduct a call by phone only. When you call to schedule your telehealth appointment, you will be asked about your preference and then given instructions on how to connect with your doctor.
